### DISPOSITION

**XX** Granted (see below)

The above action was effective when taken: May 8, 1998, through May 8, 2000

Action taken by: **Paul L. Gretch, Director**  
**Office of International Aviation**

**XX** The authority granted is consistent with the April 8, 1998 Memorandum of Consultations between the United States and France.<sup>1</sup>

Except to the extent exempted or waived, this authority is subject to the terms, conditions, and limitations indicated:

**XX** Holder's certificate of public convenience and necessity

**XX** Standard Exemption Conditions (attached)

**Special Conditions:** The authority granted was made subject to the following conditions:

(a) The authority to operate via intermediate points and beyond France to third countries shall be limited to blind-sector operations only and is limited to countries with which the United States has signed open-skies agreements and/or countries for which the carrier holds authority to serve under certificates or exemptions issued by the Department, and for which it holds route integration authority by virtue of either the present action or other action of the Department.

(b) Any service provided under the route integration authority granted shall be consistent with all applicable agreements between the United States and the foreign countries involved, and further (a) nothing in the award of the route integration authority granted should be construed as conferring upon Northwest rights (including fifth-freedom, intermediate and/or beyond rights) to serve markets where U.S. carrier entry is limited unless Northwest notifies us of its intent to serve such a market and unless and until the Department has completed any necessary carrier selection procedures to determine which carrier(s) should be authorized to exercise such rights, and (b) should there be a request by any carrier to use the limited-entry route rights that are included in Northwest's authority by virtue of the route integration exemption granted here, but that are not then being used by Northwest, the holding of such authority by route integration will not be considered as providing Northwest a preference in a competitive carrier selection proceeding to determine which carrier(s) should be entitled to use the authority at issue.

(See Reverse Side)

<sup>1</sup> On April 8, 1998, the United States and France signed a Memorandum of Consultations (MOC) and initialed the text of a framework for a new Air Transport Agreement (Agreement). The MOC also provided that each Party would permit operations consistent with the new Agreement on the basis of comity and reciprocity, pending finalization of the Agreement.

(c) The code-sharing operations conducted under this authority must comply with 14 CFR 399.88 of the Department's regulations and any amendments to the Department's regulations concerning code-share arrangements that may be adopted, and are expressly conditioned upon the requirements that the subject foreign air transportation be sold in the name of the carrier holding out such service in computer reservation systems and elsewhere; that the carrier selling such transportation (*i.e.*, the carrier shown on the ticket) accept all obligations established in its contract of carriage with the passenger; that the passenger liability of the operating carrier be unaffected; and that the operating carrier shall not permit the code of its U.S. carrier code-sharing partner to be carried on any flight that enters, departs, or transits the airspace of any area for whose airspace the Federal Aviation Administration has issued a flight prohibition.

(d) The authority granted does not authorize services between New York and Paris.<sup>2</sup>

(e) The U.S.-France combination services operated by Northwest must be operated within the level of services authorized Northwest for U.S.-France combination services.
